

Summary (notes) by Heidi from the message.....

## **A place prepared**

Sis. Eileen (17.6.12pm)

'I go to prepare a place'.....you can't contain the place that Jesus is in

What message do you take out there? Many people preach Jesus lives in your heart and makes you happy. The living word though is everything everywhere- there is no separation between the church of God here and the church of God beyond (those that have gone before us).

Once you are in the church of God, you are in the living word. Too often Jesus is pinned down to be a man in your heart, however he was only on the earth for 30 years yet he always was.

John 14:2, 4-20

Jesus is the way, truth and the life. We are received into his living word.

John 15:1-5

Jesus lived in the celestial, terrestrial and the spiritual. He always was and is.

Ps. 90:1, 10; Rev. 1:18, Ecc. 12:7

Ps. 91

Heb. 12:1-2

Cloud of witnesses are those saints who have passed on. The church of God is place of repentance.

Ps. 133

The cloak is the living word. The reason why you have the oil is so that you can take it with you and share it- it is not for you to keep.

When Daniel was in the lions den, there were four of them walking around- but he was in a different place.

Mal. 5:1-5

Behold, I stand and knock- how can Jesus knock on his own door?

Acts 6:8-14

Those with Stephen didn't want to hear about Jesus, as they already had a form of godliness within them- they had a little 'Jesus' in their heart, the word but not the living word.

Mark 10:29-39

God has prepared a place for us. We can't be satisfied with a little man in your heart.

vs. 30- that is all in the living word. If you take the living word out to the world, you will share the way, truth and the life to the world. He is more than just a man. We need to get beyond seeing him as a little man within our heart.

Stephen died but as he did, he was already in another place. We too need to be in that place that Stephen was in. 'He went to prepare a place'- that place is the living word, the church of God. You need to take that out to the world.
